Sample Species Accounts

To give you a taste of what you'll find in Avitopia: Birds of Argentina, here are a few sample species accounts:

Andean Condor (*Vultur gryphus*)

The Andean Condor is the largest flying bird in the world, with a wingspan of up to 10 feet. It is found in the Andes Mountains of South America, where it feeds on carrion. The Andean Condor is a symbol of strength and power, and is revered by many indigenous cultures.

Southern Screamer (*Chauna torquata*)

The Southern Screamer is a large, flightless bird that is found in the wetlands of Argentina. It is known for its distinctive call, which sounds like a human scream. The Southern Screamer is a social bird that lives in groups of up to 100 individuals. It is a herbivore that feeds on plants and seeds.

Burrowing Owl (*Athene cunicularia*)

The Burrowing Owl is a small owl that is found in open grasslands and deserts of Argentina. It is named for its habit of nesting in burrows dug by other animals. The Burrowing Owl is a nocturnal predator that feeds on rodents, insects, and other small animals. It is a social bird that often lives in colonies.
