Ecotourists Save the World is a powerful and inspiring book by Alex Greenwood that uncovers the devastating environmental and social impacts of mass tourism and offers a roadmap for a more sustainable path forward.

Greenwood argues that the current model of tourism is unsustainable and is destroying the environment and local communities in many parts of the world. He cites examples of mass tourism's negative impacts on coral reefs, rainforests, and wildlife. He also discusses the social problems that can arise from mass tourism, such as increased crime, prostitution, and cultural erosion.

But Greenwood offers hope. He believes that ecotourism, a form of responsible travel that minimizes negative impacts and supports local communities, can be a force for good. He provides numerous examples of ecotourism projects that are working to protect the environment and promote sustainable development.

Ecotourists Save the World is a must-read for anyone who cares about the environment and the future of our planet. Greenwood's powerful message and practical advice will inspire you to become an ecotourist and make a positive impact on the world.

Praise for Ecotourists Save the World

"A must-read for anyone who cares about the environment and the future of our planet." - **David Attenborough**

"An inspiring and practical guide to responsible travel." - **National Geographic Traveler**

"A powerful indictment of mass tourism and a persuasive case for ecotourism." - **The New York Times**

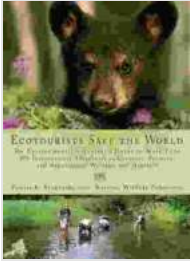

About the Author

Alex Greenwood is a passionate advocate for ecotourism and sustainable travel. He is the founder of the Ecotourism Society, a nonprofit organization that promotes responsible travel practices. He is also the author of several other books on ecotourism, including *The Ecotourist's Guide to Sustainable Travel* and *Ecotourism: Principles and Practices*.
